Brainstorm & Idea Prioritization Template:

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. Prioritizing volume over value, out-of-the-box ideas are welcome and built upon, and all participants are encouraged to collaborate, helping each other develop a rich amount of creative solutions.

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

Before you collaborate

This preparation time can be broken up, where depending on what you plan to share and how ready it is to present.

1. Add your ideas to the board

Have your ideas prepared and ready to present. Add them to the board, one by one, and have them ready to present.

2. Plan what you want to say

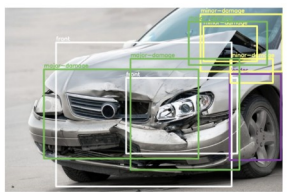

Use the space to prepare your ideas. Plan the points you want to make, and have them ready to present.

3. Ready to collaborate

Once you are ready to present, you can begin to share your ideas with the group. Use the space to prepare your ideas, and have them ready to present.

Present the idea

Explain the problem you intend to solve, then share ideas for solving it. Ask for feedback, questions before moving on. Keep your presentation short so that there is plenty of time for feedback.

Get feedback

Have each person identify and individually write feedback. After 10 minutes, have people share what they wrote. As comments are shared, consider adding sticky notes near a relevant part of what you presented.

Step-3: Idea Prioritization

Idea prioritization

Use this framework to rank ideas based on their feasibility and impact to visually compare the merits of multiple ideas. Deliver a set of ideas that your team wants to try out, and identify which of them need to be prioritized.

Share template feedback

Collect your ideas in one place

Jot down different ideas your team is interested in trying out. These could be different solutions, or different approaches to the same solution. As a team, go through the ideas in the Idea bank one by one and place them on the grid. Take the time to discuss each idea and come to a consensus on where it should go.
